LUCAS OIL PRODUCTS WILL NOT VOID ANY OEM WARRANTIES

Lucas Oil meets or exceeds every motorcycle manufacturer's oil specs.

Motorcycle owners may be told that they can only use original equipment manufacturers oil or this will “VOID” the motorcycle warranty. Dealers and OEM manufacturers should be aware of a federal law (Magnuson-Moss Warranty Act) that prohibits any manufacturer from limiting which lubricants can be used — as long as the oil and lubricants meet or exceed the OEM's recommended specifications for the products suggested.

In short, the Magnuson-Moss Warranty Act states: *“No warrantor of a consumer product may condition his written or implied warranty of such product on the consumer's using, in connection with such product, any article or service (other than article or service provided without charge under the terms of the warranty) which is identified by brand, trade, or corporate name;...”*
